PROFESSIONAL PROFILE

An independent and goal-oriented new Developer looking for an entry level position to do what I love. With a very strong drive to expand my knowledge base I'm willing to adapt, learn and enhance my libraries/frameworks and languages constantly. Studying at Codecademy (Full-Stack Developer Career Path) and Digital House (Certified Tech Developer). Learned in HTML, CSS, JavaScript, jQuery, React, Git/GitHub, Web Apps, SQL, PHP, CRM Tools, JAVA, Apache Maven and Agile Methodologies. Currently learning APIs, Back-End integration, Server technologies, Information Security, Express.js and Testing.
