PHP / Java / Python	● ● ● ● ●
Rust / C / C++	● ● ● ● ●

ASSETS

- Speaks
 - Spanish (Native)
 - English (Fluent, IB and IGCSE Exams)
 - French (Basic, Delf Exams)
- Personality
 - Learning Drive
 - Creative
 - Adaptative
 - Proactive
- Other
 - Italian Citizenship / Passport

PROFESSIONAL PROFILE

An independent and goal-oriented Software Engineer looking for opportunities to do what I love. Permanently learning new languages, patterns, frameworks and keeping up to date. Currently playing with Rust and really enjoying it.
Experienced in JavaScript/TypeScript (React + other JS frameworks), GoLang, C, NodeJS, Git/GitHub, Firebase/Google Cloud Functions, Azure, PostgreSQL, PHP, JAVA, Apache Maven, REST APIs, Python, Jenkins, AWS, Docker and K8s.
Regarding stack preferences, my preferred stack is either HTMX or Vite/React/TS for the front-end and GoLang for the back-end.

EDUCATION

Digital House

Certified Tech Developer (2018)

- Full-Stack Development

Codecademy

Full-Stack Engineer Career Path (2016- 2018)

- Full-Stack App Building
- Multiple frameworks
- Coding best practices

University of Buenos Aires

Psychology (2015 - 2018)

Business Administration (2012 - 2015)

St Andrews Scot School

Bachelor Degree (2012)

EXPERIENCE

Teladoc - Senior Software Engineer

2023 - Present

Engineer, develop and optimize a company-wide library used by different engineering teams developing online real time communication applications oriented towards connecting patients and doctors. Special focus on web-rtc, media transformations, A/V quality benchmarks, stream optimization and WCAG compliance. Cross-platform support and QA.

DirecTV - Lead Technical Programming Ops

2016 - 2023

Enhanced the workflow of the organization (x8) with a NodeJS TV Scheduling App transformer for a Java server. Created integrations for the mobile app (DTVGO) to optimize image rendering. Developed a full-stack Web App for Programming Operations' in-house use.
